Vineyard and cider map

In the last issue we published a brewery map of the region's 116 ale makers. Here we're showing you the Midlands' apple and grape artisans, and you might be surprised by the results – there are an impressive 15 vineyards and 20 cider makers. The vineyard count suggests that the Heart of England is responsible for well over 10,000 bottles of wine a year, while cider production is on the rise too, with several recent newcomers. If we've missed someone, please let us know – editorial@greatfoodmag.co.uk.
